Why do you want to be a part of LISTEN?

What do you hope to learn during LISTEN?

What type of cross-cultural experiences have you had?

How would you describe, in a few paragraphs, your own ethnic journey and sense of your ethnic identity? What experiences have been meaningful for you in this process?

Have you had any previous experiences with Native American culture or history? (disregard this question if you are a Native student)

Think about the land that you call home (this could be your parent's house, where you live now, or where you grew up, etc.) Which Native tribes are indigenous to that land? How have you heard them talked about/regarded in that place?

Is there anything else you would like us to know?
